| 1. MARKET REVIEW | 2 - 4 |
| 2. ADMINISTRATIVE ACTIONS RELATING TO 1967 SUGAR SUPPLIES | 5 - 8 |
| 3. OTHER ADMINISTRATIVE ACTIONS | 9 - 10 |
| 4. STATISTICAL SERIES | 11 - 22 |
| (a) Highlights | 11 |
| (b) Supply and Disposition Summary: January-May 1967 | 12 |
| (c) Disposition and stocks: January-May 1967 and 1966 To end June 1967 and 1966 | 13 |
| (d) Mainland Production and Quota Charges: January-May 1967 and 1966 | 14 |
| (e) Refiners and Importers Receipts by Source of Supply: January-May 1967 and 1966 | 15 |
| (f) Status of Quotas and Balances as of June 30, 1967 | 16 |
| (g) Deliveries by States: May 1967 January-May 1967 and 1966 | 17 |
| (h) Sugar Prices by Areas | 20 |
| (i) Sugar prices compared with corn sweetener prices | 21 |
| (j) Refined sugar production and stocks and distribution of corn sweeteners by primary distributors | 22 |

MARKET REVIEW

The Department increased the determination of annual sugar requirements for the continental United States by 100,000 tons on June 23 and by an additional 100,000 tons on June 29, thus bringing the total to 10.8 million tons. These actions were taken to increase the offerings of immediately available raw sugar supplies for East Coast and Gulf cane sugar refiners in view of (1) the increased rate of refined sugar distribution during the seasonal period of heavy demand, (2) the inclination of refiners to increase their inventories and (3) the work stoppage at the Pacific Coast cane refinery which retarded the shipment of raw sugar from Hawaii.

The Pacific Coast cane sugar refinery and the union negotiated a new contract on July 20. The union membership ratified the contract on July 24. The following day the refinery was in operation for the first time since June 10.

Sales of sugar continue to run at about last year's rate. During the first half of 1967, distribution of refined sugar by primary distributors totaled 4,851,000 short tons, raw value, as compared to 4,798,000 tons during the first half of 1966. However, distribution during the first half of July was somewhat below the record of the preceding year, in part because distribution of cane sugar on the West Coast was diminished and in part because distribution in June had been unusually heavy. As a result, total distribution for the year through July 15, 1967, amounted to 5,227,000 tons compared to 5,252,000 tons during the corresponding period of last year. Deliveries by cane sugar refiners were 70,000 tons greater than in the similar period of the preceding year while those by beet sugar processors were 93,000 tons smaller.

Regional departures from the national trend of distribution were not great. Through May, deliveries to the North Central region on a year-to-year basis were up by slightly over one percent and to the other four regions down by from one-half of one percent to one and one-half percent.

Inventories of raw and refined sugar held by cane refiners as of July 1 totaled 824,000 tons, or about 123,000 tons more than a year ago. July 1 inventories of refined beet sugar totaled 1,042,000 tons or about 85,000 tons less than on July 1, 1966.

The Department's Crop Reporting Board on the basis of crop conditions as of July 1 estimates sugarbeet production from the 1967 crop at 18,569,000 tons or nine percent less than last year. The area expected to be harvested amounts to 1,153,100 acres or just one percent less than last year. However, the yield this year is estimated at 16.1 tons per acre as compared to 17.6 tons last year. Weather during the planting and early growing season was very unfavorable. Since July 1, the weather has improved and if it continues generally good until harvest time, the actual yields achieved may also better the July 1 prospects.

In the mainland sugarcane area, Louisiana cane production is estimated at 8,505,000 tons, an increase of 20 percent over 1966 and 13 percent above the 5-year average for 1961-65. Sugarcane production in Florida is estimated at 6,138,000 tons or two percent below 1966 but 32 percent above the 1961-65 average. At average sugar extraction rates for the 1961-65 crops, cane sugar production in the mainland cane area would total approximately 1,252,000 short tons, raw value -- about 680,000 tons from Louisiana and 572,000 tons from Florida. This compares with 1966 crop year production of 1,214,000 tons for the mainland cane area -- 562,000 tons from Louisiana and 652,000 tons from Florida.

Cane production in Hawaii during 1967 was estimated by the Crop Reporting Board at 10,494,000 tons or 5.9 percent less than the 1966 crop but two percent above average. Sugar produced from the 1966 crop sugarcane totaled 1,234,000 short tons, raw value, a record crop. At average extraction rates for the 1961-65 crops, the 1967 crop of cane in Hawaii would yield about 1,180,000 tons of sugar.

Production of 1967 crop sugar in Puerto Rico through July 16 was about 805,000 tons compared to 872,000 tons during the same period last year. Sugar recovery from the cane this year has averaged 9.903 percent compared to 9.236 percent for the same period last year. All but one mill had completed grinding as of July 16.

The spot price for domestic raw sugar has been 7.30 cents per pound since July 1. During June the price averaged 7.32 cents per pound and for the period January-June 1967, 7.22 cents.

Wholesale price quotations for refined sugar were unchanged from January to mid-June 1967. Since then there have been selective increases of from .15 to .20 cent per pound in all territories except the Northeast and the Lower Pacific Coast. The quotations were not increased in the Northeast and were raised .30 cent per pound on the Lower Pacific Coast. As of July 21, by territories, the quotations for the basis pack (100 pound paper bags) were:

| | <u>Cane</u> | <u>Beet</u> |
|---------------------------|--|-------------|
| | <u>Cents per pound in 100 lb. paper bags</u> | |
| Northeast | 10.60 | |
| Southeast | 10.35 | |
| Gulf | 10.20 | |
| Eastern beet | | 9.65/9.80 |
| Chicago-West | 10.05 | 9.85 |
| Direct shipment territory | 9.95 | 9.75 |
| Lower Pacific Coast | 10.25 | 10.25 |
| Northwest Intermountain | 10.00 | 10.00 |

The United States average retail price for refined sugar in five pound paper bags was 12.18 cents per pound in May - the average for 1966 had been 12.04 cents per pound.

The Foreign Agricultural Service of the Department in June 1967 estimated world centrifugal sugar production for the 1966-67 crop at 71,865,000 short tons, raw value, 969,000 tons below the November 1966 estimate but second only to the record production of 1964-65. The 1966-67 crop is about five percent larger than the 1965-66 crop. World consumption is expected to be some three million tons less than production.

On June 2, F. O. Licht, the European sugar statistician in his second estimate of the world sugar balance, based on the period September 1, 1966 to August 31, 1967, estimated production at 65,461,000 metric tons (72,157,000 short tons, raw value) and world consumption as 65,669,000 metric tons (72,387,000 short tons, raw value). However, Licht on July 20 revised upward his estimate of 1966-67 crop production to 66,427,000 metric tons (73,222,500 short tons, raw value).

The spot price for world market sugar on the New York Coffee and Sugar Exchange averaged 2.52 cents per pound during June and 1.98 cents per pound for the first half of 1967. On July 24 the spot price was 1.89 cents per pound. On that date prices for futures ranged from 1.87 cents per pound for September 1967 up to 2.53 cents for November 1968.

ADMINISTRATIVE ACTIONS RELATING TO 1967 SUGAR SUPPLIESRequirements increased to 10.8 million tons

The U. S. Department of Agriculture on June 29, 1967 announced an increase of 100,000 tons in the determination of domestic sugar requirements (total quotas) to a total of 10.8 million tons for this calendar year.

The quota for the domestic beet sugar area is increased by 47,667 tons. The quota for the mainland cane sugar area is increased by 17,333 tons and quotas for foreign countries are increased by 35,000 tons.

The work stoppage at the Pacific Coast cane sugar refinery temporarily retarded the availability of raw sugar supplies from Hawaii. While deliveries of refined beet sugar supplied the requirements of users on the West Coast, some diminution of refined beet sugar deliveries elsewhere during the summer and prior to the sugarbeet harvest could occur as a result. It is considered prudent in these circumstances to add to the offerings of immediately available raw sugar supplies for Gulf and East Coast cane sugar refineries.

The quota increases and revised quotas resulting from the increase in total requirements are shown in the table on page 7.

Requirements increased to 10.7 million tons

The U. S. Department of Agriculture on June 23, 1967 announced an increase of 100,000 tons in the determination of domestic sugar requirements (total quotas) to a total of 10.7 million tons for this calendar year.

The quota for the domestic beet sugar area is increased by 47,667 tons. The quota for the mainland cane sugar area is increased by 17,333 tons and quotas for foreign countries are increased by 35,000 tons.

The rate of sugar distribution has recently increased. In these circumstances and with the period of heavy demand for refined sugar at hand, sugar refiners have shown an inclination to enlarge their inventories and to make advance purchase commitments. Today's action will add to the quantity of raw sugar offerings for third quarter arrival.

Sugar within quotas which has not been previously authorized may be authorized for importation at any time this year.

The quota increases and revised quotas resulting from the increase in total requirements are shown in the table on page 8.

| Production area | Change in quotas | Basic quotas | Temporary quotas and prorations pursuant to Sec. 202(d) 1/ | Deficits and deficit proration | Total quotas and prorations |
|-------------------------|------------------------|-----------------|--|---|--------------------------------------|
| Short tons, raw value | | | | | |
| Domestic beet sugar | 47,667 | 3,215,667 | | | 3,215,667 |

| Total | 100,000 | 9,275,764 | 1,424,236 | | 10,700,000 |

1/ Includes the proration of quotas withheld from Cuba and Southern Rhodesia.

* Direct-consumption portion: Hawaii - 36,594 tons; Puerto Rico - 160,500 tons;
Republic of the Philippines - 59,920 tons;
Panama - 3,817 tons; and Ireland - 5,351

ADMINISTRATIVE ACTIONS

| <u>Date announced</u> | <u>Nature of action</u> |
|-----------------------|---|
| June 15, 1967 | Updates the general program provisions relating to eligibility for Sugar Act payments in Hawaii. Some definitions previously included in other program regulations have been added. (See June 22, 1967 Federal Register). |
| July 5, 1967 | Announced an informal public hearing to be held July 18 in San Francisco, Calif., to receive views and recommendations on whether or not proportionate shares (farm acreage allotments) should be established for the 1968 crop of sugarbeets in the Domestic Beet Sugar Area. The hearing will begin at 10 a.m. (San Francisco time) in Room 15018 Federal Building, 450 Golden Gate Ave. (See July 11, 1967 Federal Register). |
| July 12, 1967 | Updates the general program provisions relating to eligibility for Sugar Act payments in Puerto Rico. Some definitions previously included in other program regulations have been added. (See July 20, 1967 Federal Register). |
| July 12, 1967 | <p>Announced revised processor allotments increasing the permitted entries of Puerto Rican sugar into the continental United States for direct-consumption.</p> <p>The revised allotments totaling 162,000 short tons, raw value, reflect an increase in the direct-consumption limit established when total sugar requirements for U. S. consumption were increased to 10.8 million tons. (Press Release USDA 2069-67) (See July 18, 1967 Federal Register).</p> |

Date announcedNature of action

July 13,
1967

Announced revised processor allotments of the 1967 sugar quota for the Mainland Cane Sugar Area. These allotments, totaling 1,169,333 short tons, raw value, replace previously established allotments, totaling 1,134,667 tons, which have been in effect since June 21 (32 - F.R. 8805).

The revised allotments reflect the larger quota for the area which became effective on July 3 (Press Release USDA 2069-67). (See July 19, 1967 Federal Register).

July 14,
1967

Announced an amendment to Sugar Regulation 817 applicable to the importation of sugar containing products. This amendment gives effect to the overriding limitations established pursuant to Presidential Proclamation No. 3790 dated June 30, 1967, issued pursuant to Sec. 22 of the Agricultural Adjustment Act, as amended. (See July 14, 1967 Federal Register).

July 18,
1967

Announced the determination of proportionate shares (farm acreage allotments) for sugarcane farms in the Mainland Cane Sugar Area (Florida and Louisiana) for the 1968 crop. Total shares to be established for farms in the area will be about 5 percent less than this year's crop acreage.

Separate allocations for the 2 States totaling 302,120 acres (316,720 acres in 1967) for Louisiana and 188,550 acres (198,100 acres for 1967) for Florida. (See July 21, 1967 Federal Register).

STATISTICAL SERIES IN THIS ISSUEHIGHLIGHTS

1. June 1967 sugar deliveries for continental U. S. consumption 1,030,000 short tons, raw value (preliminary), up about 188,000 tons from May 1967 and up 64,000 tons from June 1966. January-June 1967 deliveries 4,851,000 short tons, raw value, up 53,000 tons from January-June 1966. Final data for May 1967 deliveries 842,000 short tons, raw value - previously published preliminary as 862,000 tons.

2. Primary distributors' stocks July 1, 1967 were 2,053,000 short tons, raw value (preliminary), up about 70,000 tons from a year ago, and down 326,000 tons from May 31, 1967. During June refiners' stocks decreased 22,000 tons, beet processors' stocks decreased 183,000 tons, mainland cane processors' stocks decreased by 48,000 tons and importers of direct consumption sugar stocks decreased 74,000 tons.

3. Charges to quotas January 1 to June 30, 1967 were 5,266,627 short tons, raw value, leaving a balance of 5,533,373 tons to be supplied within the 10,800,000 ton total.

4. Regionally, January-May deliveries, 1967 as compared to 1966, were up in 1 of the 5 regions: Increases -- North Central 1.1 percent, Decreases -- New England down 1.6 percent, West down 1.4 percent, South down 0.6 percent and middle Atlantic down 0.5 percent.

5. May 1967 distribution of corn sweeteners by corn refiners - the equivalent of 188,000 short tons, raw value, up about 46,000 tons from April 1967 and about 49,000 from May 1966. Corn sirup distribution May 1967 - 141,000 tons, up about 41,000 tons from April 1967 and up about 48,000 from May 1966. Distribution of dextrose May 1967 -- 47,000 tons, up 5,000 tons from April 1967 and up about 1,000 tons from May 1966.

Table 1. - Sugar supply and disposition by primary distributors, January-May 1967

(Short tons, raw value)

| 6. Total distribution and inventory | 2,177,681 | 203,792 | 249,577 | 545,455 | 3,135,236 | 6,311,741 |

1/ Establishments that acquire no raw sugar from others for refining. Processor-refiners are included with refiners.

2/ Includes mainland cane sugar not charged to quota: Raws, 127,723; Refined, 6,671; Total, 134,394.

3/ Production less deliveries of raw sugar to refiners.

4/ Includes 393,305 tons received from mainland cane processors.

5/ Receipts of raw sugar by refiners less melt.

6/ Refiners' stocks includes mainland cane sugar not charged to quota: Raws, 13,056; Refined, 141; Total, 13,197. Importers' stocks includes 60,670 tons entered for quota exempt purposes.

Table 2. Distribution of sugar by primary distributors, January-May 1967 and 1966

| Item | 1967 | 1966 | Change 1966 to 1967 |
|----------------------------------|----------------------|-----------|------------------------|
| Short tons, raw value | | | |
| <u>Continental United States</u> | | | |
| Refiners' raw | 9,157 | 8,308 | +849 |
| Refiners' refined | 2,826,337 | 2,694,503 | +131,834 |
| Sub-total | 2,835,494 | 2,702,811 | +132,683 |
| Beet processors' refined | 953,095 | 1,082,475 | -129,380 |
| Importers' direct consumption | 118,180 | 67,442 | +50,738 |
| Mainland sugarcane processors' | 26,467 | 30,542 | -4,075 |
| Total | 3,933,236 | 3,883,270 | +49,966 |
| For: Export | 28,393 | 23,618 | +4,775 |
| Livestock feed & alcohol | 84,550 | 28,493 | +56,057 |
| Continental consumption 1/ | 3,820,293 | 3,831,159 | -10,866 |
| <u>Puerto Rico</u> | 50,000 ^{2/} | 48,300 | +1,700 |
| Hawaii | 15,848 | 14,505 | +1,343 |

1/ Includes deliveries for United States military forces at home and abroad. 2/ Estimated.

Table 3. - Stocks of sugar held by primary distributors in the continental United States, May 31, 1967 and 1966

| Item | 1967 | 1966 | Change 1966 to 1967 |
|--------------------------------|-----------|-----------|------------------------|
| Short tons, raw value | | | |
| Refiners' raw | 536,298 | 400,904 | +135,394 |
| Refiners' refined | 308,899 | 325,022 | -16,123 |
| Sub-total 1/ | 845,197 | 725,926 | +119,271 |

1/ Spot prices are for bulk sugar under Contract No. 10 which, beginning November 21, 1966, replaces Contract No. 7. The terms of these contracts are duty paid or duty free, full duty rate .625 cent per pound.

2/ Spot prices are those under No. 8 Contract which is for bagged sugar f.o.b. and stowed at Greater Caribbean ports (including Brazil).

3/ The No. 10 "Domestic Bulk" Contract has been adjusted by deducting duty (.625¢), computed freight from the Greater Caribbean ports (including Brazil), insurance and unloading charges and adding the bag allowance (currently .055¢) before calculating the differential from No. 8 "World" Contract spot prices.

4/ These are basis prices in 100-pound paper bags, NOT delivered prices. To obtain delivered prices add "Freight Prepays" and deduct discounts and allowances. For illustration see Sugar Reports 81, January 1959, pages 5 to 9.

| Last 12-month average through June | 10.51 | 8.28 | 9.00 | 6.75 | 8.40 | 79 | 86 | 64 | 80 |

1/ Gross basis price in 100 pound bags subject to a 2 percent cash discount.

2/ Hydrate, commercial bags less than carlots, ex whse., N.Y. 100 lbs. Beginning April 1964 price is for 600 bag carload f.o.b. N.Y.

3/ In drums, price in carload lots, except from February 1962 to April 1964 for less than carload lots. Beginning April 1964, price is for tank cars f.o.b. New York, per cwt. Quoted as 42 percent unmixed, except beginning March 1956, quoted as 43 percent unmixed.

4/ Assumes price is for 92 percent solids for dextrose and 80.3 percent solids for corn sirup. Thus dry basis price is quoted price divided by 0.92 for dextrose and 0.803 for corn sirup.
